MONEY, BONDS AND STOCKS.

Stagnation in New York, with an Intensely Dull and Heavy to Weak Closing. NEW YORK, June 30 .- Money on call was easy at

2 per cent. Prime mercantile paper, 326 per cent.

Sterling exchange was dull but steady at \$4.8619 for sixty-day bills, and \$4.8819 for demand. The total sales of stocks to-day were 35,298 shares, including the following: Lake Shore, 3,360; Northern-Pacific, preferred, 1,120; Reading, 3,400; St. Paul, 5,820; Union Pacific, 8,000; Western

Union, 1,710.

The stock market to-day came as near to stagnation in point of activity as is possible, the total number of shares sold for the two hours being only 35,298. There was no special feature whatever to the dealings, and the tone, under the attacks of the traders after the European bourses had closed, was heavy to weak. The opening, however, was firm to strong, with a generally hopeful feeling. Chicago was a seller, and afterward the traders joined in the movement because of the coming strike of iron-workers at Pittsburg. The transactions were entirely of a professional character, and there was no news of any kind beyond that menioned to affect values in any way. There was an inclination to advance in the first few minutes, but prices soon reacted, and while there was no animation except in Union Pacific and St. Paul, declines extending to a per cent. were established, New England being specially prominent. The dealings dwindled away

to the smallest amount in the last hour, and the close was intensely dull amd heavy to weak at about the lowest prices reached. The result of the day's transactions is to leave prices fractionally lower than last evening, though a few stocks show small advances. The reilroad bond market was dull, and, except for tirely featureless, though the tone was generally firm throughout. The few important changes include advances in Kansas & Texas sixes, 33s, to 68, and the

Government bonds were dull to steady but firm. State bonds were neglected. Closing quotations

CHICAGO, June 30 .- Wheat was decidedly weak early, with a decline of 1c in July, ac in August and action December. The special weakness in July was charged to the selling by "longs" who did not wish to have the wheat delivered to them on Monday. The impression that the deliveries will be large prevailed pretty general early. Later it was claimed that the holders created that impression to cause July to be sold out, so that the carriers then could command prices for the worth. prices for the month. Another view was that the regular elevator men were taking the wheat so as to force the private carriers to come into their regular houses before they could deliver. The last half of the session was marked by a stiffening of prices, while the pit was quite dull. Prices ranged: July, 79½c, down to 78½c, and up to 78½c; August, 79½c, down to 78½c, and up to 79¼c. The closing prices were: July, 78¾c; August, 79¼c. There was much the same feeling in corn as in wheat. The early selling caused a break of about %c from last night's prices. July sold down to 465%c, August to 475%c and September to 48c. From these prices there was a gradual rally to the close, when prices were about ¼c under last night. Closing prices were: July, 47¼c; August, 48½c. In oats there was a decline which was rather severe for near futures. Trading in a speculative way was at times quite brick. The market was unfavorably influenced by the duliness and weakness of cash oats and a lower range of prices regular elevator men were taking the wheat so as to and weakness of cash oats and a lower range of prices for corn. June delivery declined and closed 14c lower. July declined 4c under yesterday's closing price, but under free buying by parties heretofore indentified on the "long" side there was a complete reaction, followed by a weaker market, and the final closing was 3sc under that of yesterday.
August delivery ranged 1sc lower, and closed at 3sc decline, and longer futures were about 1sc easier.
The principal trading in provisions was in changing contracts from near to distant futures, and a quiet and easy feeling prevailed. Toward the close the difference widened out, but the last sales were at 5c decline on park 021s2 05s or lard and 05s on July decline on pork, .0212@.05c on lard, and .05c on July short ribs. INDIANAPOLIS MARKETS.

The Volume of Trade in June Disappointing. INDIANAPOLIS, June 30. It is no exaggeration to say that the volume of trade in June was disappointing. The first half of the month the weather was cold and unseasonable and in all departments trade dragged. The last half there was some improvement. Dry-goods men, however, report their business to have been very satisfactory, but it should be borne in mind that there was one less whelesale dry-goods house. Grocers had only a fair trade, but with the steady prices they will come out shead on the month's business, allowing for some bad debts. Sugars are very firm and tending higher; coffees are weak; there is a little better demand for molasses, while syrups move slowly. The rice market is firm; choice stock is difficult to find. The spice market has undergone a great change; buyers are neither plenty nor anxious. The distribution of foreign and Pacific dried fruits is very limited in proportions. Valencia raisins in moderate demand. Prunes quiet and s eady in price. Oranges and lemons both in good demand at firm prices. Bananas plenty and prices weak. The hide market continues dull in its tone with no indications of an improvement in prices. In the produce markets is found a good deal of activity. The price of cheese is strengthening rapidly. Sweet, fresh butter readily brings good trices. Eggs and poultry both firm at quotations, and likely to be for some time to come, as receipts show a scarcity in the country contributory to this market. New apples, new potatoes, and new cabbage, are coming in more freely, and prices are on the down grade. A few peaches are coming on to the market, and choice ones, of which there are some, readily bring our best prices As usual on Saturday berries were in good demand, and good prices were realized. Indications are that the supply of berries for home-canning will be lighter than for some years. Prices, however, compare favorably with those of last year, and no disposition is shown to bull the market. Early vegetables of home production are becoming plenty. Other markets present no new features.

It was another off day in the local markets, prices ruling easier all along the line. Buyers were few and holders indifferent. Track bids ruled as follows: Wheat-No. 2 Mediteranian.... No. 2 red..... July ..... August ..... Corn-No. 1 white..... 514 No. 2 white...... 54m Sound ear, white...... 53e Oats-No. 2 white. Bran \$11 00 Hay-Choice timothy ...... 16.75
